

We are delighted that your students have chosen to apply to Lancaster University for one of our Study Abroad, Exchange or Erasmus+ programmes. Below is some information about how to access our application materials and our application deadlines.

Applications to Lancaster University are completed using our online application system. To give students access to the system please send a nomination email to studyabroad@lancaster.ac.uk including the following information:

- Student's Full Name
- Student's Email Address
- Whether they are applying as an Exchange, Study Abroad, or Erasmus+ student
- Terms they are applying for
- Student's Major area(s) of study and if they are a UG or PG student

As part of the application, the student will need to complete a provisional list of modules they would like to take (Study Plan).

This should also include at least two reserve choices in case any of their first choice modules are no longer running or are full. An up to date list of modules can be found at: lancaster.ac.uk/studyabroad-modules. If the student is postgraduate, please contact us for further advice on the modules available.

As part of the application the student will need to upload a copy of their most recent transcript. We will also need to receive a copy of their current passport before we can issue any visa documentation. This can be sent separately if the student does not have one yet.

Once the application had been submitted the students will be able to download a PDF of the application for their records.

Application Deadlines

May 31st for September starters, October 31st for January starters
(Priority application deadline: 30 April)

If you have any questions about our fees, please feel free to contact us
